

# **DRAFTER / CNC PROGRAMMER (Wapato - Yakima Area)**

Date: 6-2-13

---

Amtech, LLC. is recognized as one of the fastest growing, and most innovative, small businesses in the State of Washington.

Amtech is a diverse manufacturer of composite-based products and parts. With expertise in Design, Engineering, and Research and Development, Amtech's products are distributed in both military and commercial markets. Established in 1987, Amtech employs a growing workforce of skilled technicians, working in a specialized plant in Wapato, WA.

We are currently seeking a Drafter/CNC programmer to join our team.

The basic function of the Drafter is to perform a variety of detailed, complex and semi-complex drawings and programming CNC to trim parts. This includes breaking down information obtained, making necessary calculation, indicating necessary details, preparing bills of material and material specifications. The drafter is responsible for handling complete design, re-design or design changes on existing parts.

## **RESPONSIBILITY:**

- \* Responsible for drafting of Amtech proprietary products in SolidWorks, creating work instructions and tooling drawings.
- \* Revise engineering drawings and documents.
- \* Create CNC programs
- \* Debug CNC programs and resolve problems at machining station.
- \* Ensure that CAD / CAM files are appropriately stored and backed up.
- \* Assist Engineer in developing and maintaining Bills of Material.
- \* Assist Engineer in developing engineering change notice.

## **EXPERIENCE / TRAINING REQUIRED:**

Graduate of certified Mechanical or Architectural Drafting Vocational School or at least two years SolidWorks experience drafting.

CAD proficiency required.

MasterCAM or related experience.

FANUC Control experience.
